

→ Manager

→ Create Users

→ User List

→ Photos

→ User Photos

→ Folder management

→ In the super admin dashboard it calculate only total users, but in particular company dashboard it calculates sub companies assign users also.

GLZ Plus

VOAGE-L

✓ In Company Card, remove delete button & add three dot & in that add option for delete & add Password like - ~~Delete~~@123#

✓ In the superadmin & admin has buy in Card it display  like this which is not necessary

→ On the card of total user in admin login, it display 0 not Calculate manager's user.

- changes in usercontroller, user model
- All changes from this AdminUserPage, ManagerUserPage, FolderLinkPage, etc.

✓ In the Permission, toggle switch not working.

✓ Also in Company Card, set fix size for display logo.

- Also Set that in App also.

✓ Search also not work

- When Photos very much in app then it app crash means it write error isn't responding

✓ Add option for take selfie of user from app & then that Photos set on that Particular user.

- Check for link folder, they not show images.
