

the admin dashboard, add delete option & add commission option for manager & also when delete it show inside the super admin company wise.

the app, delete button not work.

In the admin dashboard add [kashifsoft.com](http://kashifsoft.com) in footer.  
In admin dashboard, it display subfolder outside the main folder.  
when uninstal app, then photos of that it again upload why?

- When Phone's screen off automatic then upload also
- Subfolders inside subfolders not display on ~~created~~ admin dashboard, stop.
- In the app, If image not update anything after upload so it is not update on server.

- In multi-company provide which user display inside admin

✓ The sub company's user

✓ also check for pdf

✓ In admin dashboard, a Page, do support & also do Company

- Global search also not work
