

In the Admin dashboard, add delete option & add
deletion option for manager & also when
delete it shows inside the sub folder ~~copying~~
else.

In the app, delete button not work.

In the Admin dashboard add ~~sub~~.com in
Admin dashboard, it display subfolder outside the ~~root~~
when uncheck off, then photos of that is again
shown why?

When phone's screen off automatically then upload also
subfolders inside subfolder not display even in main

GLZ Plus

- In M&M company, the admin dashboard
provide which user to access that by
display inside folder log-in page for user
page.

✓ The sub company's user not display in their
dashboard for fit.

✓ In Admin dashboard, other user can't
log-in, so support has to make them
to do company ~~having~~ user

- (Right side) ~~log-in~~ user VOAGE-1
