→ In Company Card, remove delete button & add three dot & in that add option for delete & add password like - Delete @ 123#

- In this invoice system, add option that when year ends & we provide this system to which company so that year when ends about to end at that time give notification inside super admin for that Particular Company.

Shared counters

- Tomorrow work :- check broker for user stats service too display proper total company manager
- also check for storage limits for admin & manager VOAGE-L for admin & all
